The ten-bulb CALA pendant light impresses with its stylish design and is guaranteed to attract everyone's attention. Whether above the dining table or a counter - it unfolds its full effect everywhere and provides targeted lighting with optimum lighting conditions. Thanks to the integrated SWITCH dimmer, you can conveniently adjust the brightness in three levels using a conventional light switch: 100%, 50% or 25%. The light colour can be set directly on the luminaire so that you can always create the perfect atmosphere. The black matt pendant blends seamlessly into modern living spaces and creates a pleasant ambience. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.
